

Tarmac cutter TC05–TC20

engcon[®]

TC05–TC20: For all excavators in the 3–33 ton weight class

Engcon's Tarmac cutter uses the excavator's weight to accurately and quickly cut through road surfaces, providing a square edge for repairs and eliminating additional plant on site. The cutter may also be used for other surfaces such as grass and composites where accurate and quick work is required.
